10 September 1973

MEMORANDUM FOR:

SUBJECT: First Draft, Annual PFIAB Report

1. Attached is a first draft of the annual report to PFIAB. Portions of this draft were prepared in PRG, PEG, and CCG, and no attempt has been made to eliminate possible duplication.

2. I am primarily interested in your reaction to the overall approach and any comments you may have regarding any topics which may have been omitted.

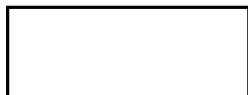

3. The present version is 36 pages long as compared with my forecast of 30 to 40 pages, but two sections remain to be drafted. The section on USIB committees will be drafted after receipt of the inputs from the committees, due by 14 September, and the final section on "Strengthening the DCI Role" will be written after all other sections of the paper have been completed.

MEMORANDUM FOR GENERAL GRAHAM

SUBJECT Draft of DCI Report to the PFIAB ~~maximization~~

1. The attached pages represent the following portion of the DCI's annual report to PFIAB on coordination of the U.S. foreign intelligence effort. These represent the sections covering PRG interests and activities:

- A. General
- B. Reorganization of the DCI Intelligence Community staff
- C. Revision of the Director of Central Intelligence Directives
- D. Objectives, requirements and priorities
- E. Product review and improvement

2. Remaining sections of the draft will be:

- F. Evaluation and collection strategy --PEG is writing.
- G. Coordination of resource matters -- CCG is writing.
- H. Security and foreign release of intelligence --PRG is writing
- dsr* — I. Role of the USIB structure -- PRG is writing
- J. Strengthening the DCI role -- PRG is writing.

3. In final draft the materials in A through E probably will have to be shortened. The length is about twice what I had originally thought. I have no idea as yet as to how much PEG and CCG will turn in, although they had estimated 10 and 9 pages each. I intend that H, I and J will be quite ~~an~~ brief.

4. Your approval of the draft materials attached is requested.
